EARTH CARE DAY

Sunday October 4
Cheesequake State Park

Show off your company's
environmental commitment
at Earth Care Day!

EarthShare New Jersey's Earth Care Day is back for the 8th year! We invite you to be a part of this impactful day of outreach and environmental education.

Earth Care Day is a fun filled gathering for all ages with hands on activities, walks, talks, prizes, readings, games and more. This unique FREE event engages members of the community with environmental education activities through interactive exhibits.

Over the past 7 years, Earth Care Day has connected thousands of community members with environmental topics. The event grows steadily every year, with families and groups becoming repeat participants who look forward to coming. This continued expansion reflects a rising interest in sustainability and provides sponsors with valuable exposure to families, students, and local residents who are actively invested in environmental responsibility. Supporting Earth Care Day offers a meaningful opportunity to connect your brand with a positive, forward-thinking initiative that continues to broaden its reach and impact.

Sponsors like you help to keep this program free for all. EarthShare New Jersey believes that environmental education should be available to everyone, regardless of age or background, because the choices we make today directly shape the world we share tomorrow. Your support helps to remove participation barriers by providing the resources needed for interactive learning experiences, supplies, and outreach efforts. With your partnership, we can empower individuals—especially young people—to make informed, environmentally responsible decisions and become lifelong stewards of our Earth.
